

INGINERIA ILUMINATULUI

Lighting Engineering

Vol. 4, No. 10 – Winter, December 2002 (printed in February 2003)

- 3 Editorial, *Florin POP*
- 5 Efficiency in public lighting, *Fernando DECO*
- 17 Calculation sheets for photometric characteristics of luminaires (Romanian), *Paul DINCULESCU, George G. BRATU*
- 23 Photovoltaic lighting systems for rural isolated area, *Silvian FARA, Dumitru FINTA*
- 31 Public lighting design: economic optimisations, an example, *Luciano DI FRAIA*
- 43 Using interreflection theory for the reflection measurements (Romanian), *Cătălin D. GĂLĂȚANU*
- 49 Energy efficiency in lighting – between regulations and reality, *Florin POP*
- 59 European utilisation factor method, *Axel STOCKMAR*

Conferences and symposiums

- 73 *The 2nd International Lighting Conference ILUMINAT 2003, Cluj-Napoca, May 8-9, 2003, First announcement*

Information

- 76 *Lighting Engineering Center – LEC – UTC-N (Romanian), Florin POP*
- 79 *A Quick and Easy Web-Based Assessment Tool for Day/Electric Lighting (translated to Romanian)*
Konstantinos PAPAMICHAEL
- 82 *Lighting in the new world - Current and upcoming research topics, Cristian ȘUVĂGĂU*
